This preparation and presentation of the Selected Information are the sole responsibility of the management of SHI.
Bureau Veritas was not involved in the drafting of the Selected Information or of the Reporting Criteria. Our responsibilities were to:

- obtain limited assurance about whether the Selected Information has been prepared in accordance with the Reporting Criteria;
- form an independent conclusion based on the assurance procedures performed and evidence obtained; and
- report our conclusions to the Directors of SHI.

Assessment Standard

We performed our work in accordance with International Standard on Assurance Engagements (ISAE) 3000 (Revised), Assurance Engagements Other than Audits or Reviews of Historical Financial Information (Effective for assurance reports dated on or after December 15, 2015) issued by the International Auditing and Assurance Standards Board.

For the greenhouse gas emissions data, we undertook verification in accordance with the requirements of ISO14064-3 (2019): Greenhouse gases - Part 3: Specification with guidance for the verification and validation of greenhouse gas statements.

Summary of work performed

As part of our independent verification, our work included:

1. Conducting interviews with relevant personnel of SHI;
2. Reviewing the data collection and consolidation processes used to compile Selected Information, including assessing assumptions made, and the data scope and reporting boundaries;
3. Reviewing documentary evidence provided by SHI;
4. Reviewing SHI systems for quantitative data aggregation and analysis;
5. Verification of sample of data back to source by carrying out five physical site visits, selected on a risk based bases at the following locations:
    - Sumitomo Heavy Industries, Ltd. Head Office
    - Sumitomo Heavy Industries, Ltd. EHIME WORKS　NIIHAMA　FACTORY
